#### MONEY, BONDS AND STOCKS.

An Irregular, Feverish, and Generally Lower Market in New York City. NEW YORK, Sept. 10.-Money on call was easy at 102 per cent., the last loan being made at 11. closing offered at 11 22.

Prime mercantile paper, 5@61 per cent. Sterling exchange was quiet but steady at \$4.842 for sixty-day bills, and \$4.872 for demand. The total sales of stocks to-day were 265,287 shares, including the following: Delaware, Lackawanna & Western, 7,992; Erie, 3,775; Hocking Valley, 8,758; Lake Shore, 4,003; Missouri Pacific, 4,320; Northwestern, 7,600; Norfolk & Western, preferred, 5,075; Northern Pacific, 4,719; Nor hern Pacific preferred, 7,578; Ohio & Mississippi, 5,725; Oregon Transcontinental, 13,790; Reading, 31,710; St. Paul, 36,015; Texas Pacific, 5,825; Union Pacific, 6,170; West-

ern Union, 29,866. The stock market was somewhat irregular, feverish and generally lower to-day, the heavy trading in the low-priced shares being a feature of the dealings, as well as the unusually large number of stocks traded in. There was a renewal of the attacks upon St. Paul, with free realization in most of the active list, but the most determined drive was made at the grangers, in the last hour, by which all the list was affected, and the majority of the list are lower this evening in consequence. The early figures from London this morning were lower than our prices of Saturday, and the "bears" immediately attacked St. Paul, which London also sold, with some others. The general list, howexhibited a strong tone and soon broke away from St. Paul, while a number of the mactive list developed marked strength, Hocking Valley leading, the nearness of the decision on the suit for \$3,000,000, which the friends of the road confidently expect will be in favor of the company, stimulating buying. The general list sympathized with those stocks, and before noon most of the list showed small gains for the morning's work. The improved tone, however, gave way later, and these advauces were generally wiped out, though the character of the dealings underwent no change. Among the stocks showing unusual strength today were the stocks of the small coal companies, though the stocks of the great coal-carrying roads were rather sluggish as a rule. The Northern Pacific group also displayed considerable firmness, especially late in the day, though only the Oregon Improvement Company made any rise. The drive was renewed after delivery hour with great force, and, while the grangers were the principal sufferers, everything on the list was affected and the lowest figures were reached shortly before the close. The dividend on St. Paul was offered for 1 per cent. in the board today, without takers. The opening figures were made at irregular changes from Saturday's closing prices, and this irregularity was seen in the early dealings almost until noon, and, while the trading was quiet in the usually active shares the lowest-priced specialties became more active and most of them strong, and did no show signs of weakening until toward 2 P. M. Denver & Rio Grande was a feature of the afternoon's market, and, with Hocking Valley, led the upward movement. Business became more active in the last hour, and the grangers slumped off quite rapidly carrying the rest of the list with them, even the specialties giving way under the pressure. The close was quiet and weak, generally at the low-est prices reached. Most of the list show declines to-night, but, with the exceptions of St Paul, which is down 11 per cent., and North-western, which lost 1 per cent., the losses are for fractional amounts only, while Hocking Valley rose 21, and Denver & Rio Grande, both common and preferred, 14 per cent. The mar ket was a little more active than the average of

The railroad bond market was quiet to-day, and though there was no special activity any-where in the list, the sales of all issues reached \$1,385,000. The tone of the trading, unlike that in shares, was strong throughout, and almost everything traded in shows an advance this evening. The gain of most importance was the Chesapeake & Ohio and Southwestern seconds,

Government bonds were quiet but firm.

CHICAGO, Sept. 10.—The early hours on Change to-day were marked by weakness and lower prices for nearly all cereals, and speculative activity, strength and higher prices for hog products. The wheat market was unsettled during the greater part of the session, one cause of the uneasiness late in the day being the delay in the visible supply figures. The popular estimate made the increase at about 2,000,000 bushels. After two or three hours of weakness, and after prices got about te under the close on Saturday, there was an estimate circulated which made the increase but 1,200,000 bushels. This caused a reaction of ic very quickly, but the official figures were not forthcoming when the session was nearly ended, and the govern-ment crop report, due to-day, was also held for a later hour, and on the uncertainty of the two statements there was a holding off in buying orders, which let prices down again. December started at 921c, touched 921c, reacted to 931c, and went off again to 921c, firming up quickly the second time to 93ic. The board's cable gave spot wheat id lower in England. The visible supply report, posted just before the close of the regular session, made the increase in wheat 1,160,000 bushels. On the strength of this the market closed firm, at 1 P.
M., with Sestember at 92%; October, 91%; December, 93%c, May, 97%c. The strength underlying the corn market is due largely to the excellent cash demand. Prices for cash and early futures closed at about the outside for the session, with September at 45 c. October at 44 c; range, 44 c 45c; December and May, 39 c. Oats were quiet but firm, closing a shade better than on Saturday. Provisions made a gain all round. Receipts of hogs were very light and prices higher, while "shorts," covering, assisted in the upturn. October pork epened at \$14.10, a fraction over Saturday's close, and, under buying by the "short" interest, climbed to \$14.35, where it closed at 1 o'clock. January advanced 71c during the morning session, resting at \$14. Lard opened .05@.07½c higher, and closed with a gain of the same figures. The fluctuations were narrow. Armour was a buyer of short ribs, which were strong and higher, especially next month's delivery. October opened at 8.57tc, and advanced to 8.75c, the closing figure, .30c higher than Saturday night. January ribs advanced .07 ic in the same time. Afternoon Board—Wheat was more active and closed about ic higher than at I o'clock. Corn was rather firm, closing a shade higher. Oats ruled quiet and steady. Pork advanced 17to for September and October, 7to for December, 15c for the year, and 12to for January. Lard was steady and unchanged for most deliveries, but November was .02½c higher. September and October ribs advanced .02½c, and

Foreign Grain Trade.

LONDON, Sept. 10 .- The Mark Lane Ex-

press, in its review of the British grain trade during the past week says: With the exception of a few showers, the weather during the week has been fire. Much grain has been secured. and the quality is much better than was expected. It is believed the quantity, also, will exceed the estimates. Still the condition is indifferent at the best. The bulk of the samples offered have been unfit for the market. Values range from 34s to 42s. for new wheats. Sales have been 14,548 quarters, at 37s, 9d, against 72,462

quarters, at 29s ld., during the corresponding period last year. A certain bulk of the crop must be stacked, and will not find a market until 1889. Country flour is scarce, and prices have advanced 6d since Monday last, when prices were 9d @ 1s, above the previous Monday. New barleys are offered locally, but are not in sufficient quantity. It is opined that its na-ture is certain to be flinty, and the supply will be scarce. The foreign wheat trade is steady and quieter; sellers hold for an advance. The trade is narrow. The arrivals have amounted 90,401 quarters. At to-day's market wheat was steady but inactive; English is so much out of condition that it is almost unsalable; foreign was taken slowly at 6s to 1s advance. Flour gained 6d @1s., and was quoted at 39s. Corn was Is dearer. Barleys were 56d @ ls dearer. Oats were 6d dearer. Beans and peas were 1s dearer.

INDIANAPOLIS MARKETS.

Trade Prospects Steadily Improving-Prices Firm and Collections Satisfactory.

INDIANAPOLIS, Sept. 10. A cheerful feeling pervades business circles. The outlook for a brisk fall trade steadily brightens. Prices in the main rule steady and strong. Collections are good, and all along the line there is a growing confidence, largely inspired by the fine crop prospects. In prices today there were but few fluctuations. Groceries rule firm, and a large distribution is in progress. The New York Shipping List says: "There has been a better demand for staple groceries, and in some instances prices are higher, particularly refined sugar, which has been moving off more rapidly and enabled sellers to obtain an advance. Refiners have accumulated some stock on account of the slow absorption of the past month, but the requirements of consumption that will be stimulated by the preparation of an abundant fruit crop, that is now in progress, is expected to furnish an outlet for the full capacity of the refineries. Raw sugar has ruled firm, but the situation is without new feature; buyers are not inclined to stock up freely in view of the early maturing of the Louisians cane and European beet crops. The coffee market has displayed a firmer tendeacy, with spot supplies firmly held and futures generally higher. It is now claimed that the crop is likely to exceed previous estimates; there has been some talk of the favorable condition of the growing crop, but it is too early for this to be an important factor. Tea has ruled quiet but steady on account of the prospect that sup-plies this season will be considerably less than last year." The produce markets are active. Eggs firm at quotations. Poultry unchanged, but on large receipts prices are weak. Butter steady; poor stock difficult to dispose of. Receipts of peaches are falling off; the same is true of pears, and with this prices have become a shade higher, but still are low as compared with those prevailing at the corresponding time in 1887. As for some time past, melons of all kinds are a drug on the market. Apples in large supply; choice fruit selling at \$1.25 @1.50 per brl. In other markets there is nothing new to note.

There was more activity in the local market to-day. Bidding on 'Change was more spirited, but there is still large room for improvement. Mixed and yellow grades of corn in good demand at a shade higher prices. Oats, as well, in good
